# THE ART

The art of The Fly Travel Club lives on the Polygon blockchain technology and consists of 2 Factions, Centaurus and Andromedus.

We believe in complete randomness, that's why the number of FLYs from each faction will be completely random, but together they will make a total of 9990 NFTs.

There are 10 Legendary FLYs. What faction do they belong to? It is not known... but sooner or later we will find out.

## LEGENDARY FLYs

10 of all FLY nfts are considered legendary. These FLYs are 100% full handmade.

Being a holder of a legendary FLY gives you extra benefits as a member of the club.

- Double the opportunities for each Legendary for the Tesla draw.
- Double chances for each legendary for the weekly raffle.
- Extra rewards obtained from the DAO.

## MUTANT FLYs

The war between factions continues and it is said that a FLY scientist, and somewhat crazy, has created a powerful serum that is capable of transforming any FLY into something far superior.

10,000 mutant FLYs have already been created (they will be for sale).

In addition, they have given us a total of 10,000 mutant serums, of which 10,000 will be distributed among our holders.

For each FLY you have, you will receive a mutant serum!

# 3D FLY'S

We can't stop and we won't stop!

The FLYs enter the metaverse, and no better way than in 3D format.

The 3D FLYs can be used as avatars in the metaverse, you could use them to create your own 3D animations, and even use them to play The Fly Game

A collection of 10K NFT will be created, all our holders will receive an NFT of the 3D FLY Collection and the remaining amount will be up for sale.

# NGOs

Our animal friends are the ones suffering the most from the effects of climate change, the deforestation of their natural habitats, plastics contaminating their food and global warming disrupting their lives.

We are highly aware of this situation and that is why our mascot being a fly isn't just a coincidence.

We will be donating 10% of all profits to different organizations working on biodiversity preservation and animal rights.
